

Quality Policy

GDZ Elektrik Dağıtım believes that quality is a process which should be accompanied with continuous development and should be sustained, rather than a destination to be reached. In the light of this principle and its Quality Policy,

GDZ Elektrik Dağıtım is committed to ;

- Ensuring the satisfaction of its consumers and suppliers and business continuity of the processes,
- Continuously improving our processes to meet the requirements of the ISO 9001 Quality Management System standard, in accordance with the requirements of the primary and secondary legislation,
- Ensuring the participation of employees with an effective leadership,
- Ensuring the continuous development of employees and the service, as well as encouraging approaches that will support future development, providing training on technical and behavioral competencies,
- To contribute to the development of subcontractors,
- Making the right decisions with measurable values, constantly reviewing the processes and company goals, and working towards improving performance,
- Continuously improving of quality performance.
